

The City, our church's online communication tool, will be upgraded this week. It is now called Realm. As a result, beginning tomorrow, when you go to sign in to The City, you will be redirected to a new login page and asked to update your password. Don't be alarmed! That's supposed to happen. Wasilla Bible Church is excited to be upgrading our online communication and community. The update will provide many of the same communication tools of The City, plus some very powerful administrative tools that our leaders and staff will benefit from, too.

WE WILL BE SWITCHING FROM THE CITY TO REALM BEGINNING TOMORROW, AUGUST 14TH.

We moved over much of your profile data and all of the groups that you're in, so all you need to do is create a new password. Once you've done that you'll get further directions for logging into Realm. After you have created your account, you can install the Realm Connect App for Android or IOS by searching for "connect - our church community" in your app store.

If you do not have a City account, and would now like to sign up for Realm, please stop by the Realm table in the foyer. If you have any questions, please contact the church office at 376-2176 or email us at office@wasillabible.org.
