EXTENDED MINISTRIES

A project supported by WBC's Extended Ministries is translating the New Testament into one dialect of an Asian language spoken by about 6 million people. Recently, the project published its New Testament as Android and iOS mobile phone apps. This software allows people to both read and hear God's Word in their own language, and offers study features such as individual book introductions, maps, color photographs, and a glossary. To date almost 4,000 copies of this app have been downloaded; the vast majority by people who are hearing about Christ for the first time. As far as the project is aware, this is the largest single distribution of the New Testament that has ever occurred in this dialect. A printed version is planned for early next year.
